Alexandria, VA 22313-1450

Sir:

The computer readable form for the continuation application entitled "Method for Rapid Amplification of DNA" being filed in conjunction with this document, is identical with that filed in the parent United States Patent Application serial number 09/881,565, filed June 13, 2001, entitled "Method for Rapid Amplification of DNA." In accordance with 37 C.F.R. 1.821(e), please use the computer readable form filed in that application as the computer readable form for the instant application. It is understood that the Patent and Trademark Office will make any necessary changes in application number and filing date for the computer readable form that will be used for the instant application. A paper copy of the Sequence Listing is included in the originally-filed specification of the instant application. Both the CRF and the paper copy are identical and contain no new matter.

If any fees are required for any reason relating to the enclosed materials the Commissioner is authorized to deduct said fees from the Vinson & Elkins L.L.P. Deposit Account No. 22-0365/INV850/4-001CON/58001.

The Examiner is invited to contact the undersigned attorney at 512/542-8569 with any questions, comments or suggestions relating to the referenced patent application.

Respectfully submitted,

VINSON & ELKINS L.L.P.
